

BARTON VILLAGE, INC.
WATER MAIN/HYDRANT FLUSHING

The Barton Village Water Department will be flushing hydrants Monday, October 7, 2024 and Tuesday, October 8, 2024 between the hours of 7:00am and 3:30pm.

Water mains are cleaned by opening hydrants and allowing water to escape under high velocity. Periodic flushing is an important part of maintaining our system.

Flushing may produce temporary discoloration, and you may experience low water pressure. The safety of the water is not affected; however, if you experience discoloration, run your water for several minutes and it should clear.

It is recommended that you schedule laundry and cleaning projects until after flushing occurs. During flushing, please keep water usage to a minimum.

Thank you for your patience.

If you have any questions regarding the times and areas affected, please contact the Barton Village Office at 802-525-4747.
